

imageRUNNER ADVANCE 8505i/8595i/8585i

HIGH PERFORMANCE, INTUITIVE USABILITY, VERSATILE FINISHING

The imageRUNNER ADVANCE 8500 Series is designed to deliver high performance and quality black-and-white output for high volume office environments and central reprographics departments (CRDs). These intelligent systems can help enhance productivity with versatile finishing options while maintaining an intuitive user experience.

Print up to 105 ppm in black-and-white

Scan up to 240/220 ipm (300 dpi) (B/W, colour, duplex)

Print up to 13" × 19"

7,700-sheet maximum paper capacity

Workflow Efficiency

- An intuitive user interface with a large, responsive colour touchscreen helps make carrying out tasks easy.
- Scalable support for mobile and flexible work styles can increase efficiency by allowing workers to capture or print documents and access certain cloud applications on the go.
- My ADVANCE enables a unique, personal experience, creating a customized user experience tailored to meet each user's workflow needs.
- Scan and convert documents to Searchable PDF, Microsoft[®] Word, and Microsoft[®] PowerPoint[®] files through a single-pass, duplexing document feeder that holds up to 300 originals.
- Canon's MEAP platform supports a range of integrated solutions designed to simplify workflow and help provide a holistic business solution.
- Create professional-looking reports, booklets, newsletters, manuals, proposals, and contracts with flexible finishing options such as professional punching, folding, document insertion, and booklet-making.
- The optional imagePASS print controller, an outstanding choice for busy operations, provides robust processing capabilities, variable data printing (VDP), and a print production workflow.

Security

- Control who has access to the device with authentication by using the standard Universal Login Manager application.
- Help prevent unauthorized distribution of sensitive information with an array of standard and optional document security features.
- Help facilitate information privacy and security by controlling access with IPsec, port filtering capabilities, and SSL technology.

Cost Management

- The ability to apply print policies, monitor output, and restrict usage by user helps reduce unnecessary printing, enables cost recovery, and can help save money on paper and toner.
- Tight integration with output management solutions, such as uniFLOW, provides the ability to carry out detailed tracking, reporting, and cost analysis.
- Quality and reliability, combined with remote diagnostics and assistance, contribute to maximizing uptime and can help reduce time spent by IT resolving issues.
- Consistent user operation, combined with remote and centralized fleet management, can help simplify IT management of devices and entire fleets.

Device and Fleet Management

- The ability to pre-configure devices makes installation easy and fleet management is simplified with the ability to synchronize settings across multiple devices.
- Canon's device management tools give you a centralized point of control across your entire fleet, including the ability to check device status and consumables, turn off devices remotely, capture meter readings, as well as manage address books and printer drivers.
- Standard Genuine Adobe® PostScript® and PCL® support integration with enterprise applications and legacy systems to help streamline business processes.

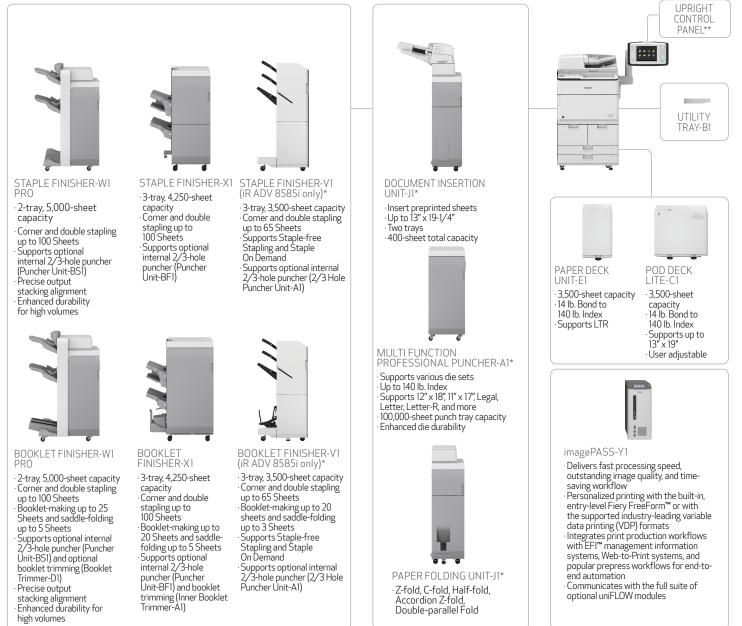

Quality and Reliability

- Canon's signature reliability and engine technologies contribute to consistent high-quality output to help meet the needs of busy offices and Central Reprographics Departments (CRDs)/In-plant Printers.
- Outstanding imaging technologies and toner allow for consistently striking images in rich black-and-white tones and 1200-dpi print resolution.
- Designed to achieve maximum uptime with status notifications to help keep supplies replenished, intuitive user maintenance videos, the ability to replace toner on the fly, and automatic job rerouting (with optional solutions).

Sustainability

- Fusing technologies, pO toner, and innovative sleep mode features help lower overall energy consumption.
- Help minimize waste with default two-sided printing, Secure Printing, and the ability to hold print jobs, preview them and change print settings at the device, helping to achieve the results you want the first time.
- ENERGY STAR[®] certified.

Configuration

* Staple Finisher-V1 and Booklet Finisher-V1 are not compatible with Document Insertion Unit-J1, Multi Function Professional Puncher-A1, and Paper Folding Unit-J1.

** Upright control panel standard on imageRUNNER ADVANCE 8505i and 8595i models. The imageRUNNER ADVANCE 8585i comes standard with a flat control panel. An optional upright control panel is available.

Footnotes

- Tab paper can be fed from Paper Cassettes (3/4) when the optional Tab Feeding Attachment Kit-B1 is installed ² Some types of tracing paper cannot be used.
- ³ Warm-up time shown for when "Quick Startup Settings for Main Power" is set to "OFF". For significantly faster warm-up set "Quick Startup Settings for Main Power" to "ON".
 ⁴ Including the toner bottle.
- ⁵ PDF print from Websites is supported ⁶ EPS can be printed directly only from the Remote User Interface.
- 7 Requires the optional PCL International Font Set-A1. ⁶ Other operating systems and environments including AS/ 400, UNIX, Linux and Citrix may be supported. Some of these solutions are chargeable. SAP Device Types are available via the SAP Market Place. For more information, contact your sales representative.
- ⁹ 0.9 W sleep mode not available in all circumstances due to certain settings.
